James Ross Gives Update on Expander Energy and Kitimat Clean Project

Calgary, AB (December 5, 2013)- Expander CEO James Ross appeared on Alberta Primetime on Monday, December 2, 2013 to give an update on the company as well as our involvement in the proposed 27 billion dollar Kitimat Clean Refinery project in British Columbia <http://bit.ly/18kuSx2>.

Mr. Ross outlines how Expander's patented FTCrude[®] technology can transform the Canadian refining industry from coast to coast and in so doing greatly increase the consumption of Alberta heavy oil in both an economically beneficial and environmentally responsible manner.

About Expander Energy

Expander Energy is a leading developer and licensor of processes to convert carbon sources into valuable synthetic fuels. Our engineered fuels are ultra-clean burning and complement existing transportation fuel infrastructure and current engine technologies. Our fuels increase production yield, reduce GHG emissions, and are produced from carbon rich materials such as natural gas, biomass, bitumen residuals, petcoke and municipal solid waste. We strive to deliver an alternative, drop in fuel through patented technology to provide economic growth for Alberta and Canada while being environmentally conscious. Expander Energy Inc. is a privately held energy company located in Calgary, Alberta, Canada.
